

An ISO 9001 : 2015 Certified Company

Guided Type Fall Arrester With Flexible Braided Rope Anchorage Line
Ref: SF-GFA-2003 (5 to 200 M)

This fall arrester work on 10.5mm dia Kernmantle polyamide rope anchorage line incorporated on the anchorage line.

DESIGN

- The Anchorage line has one side connector SF-1102, Energy Absorber with SF-RG1 and other side a stop knot
- The Anchorage line is available in lengths of 5 to 200 m.

ROPE

Material: Polyamide
 Dia: 10.5mm. ± 1mm.
 Breaking Strength: 22 KN.

METAL COMPONENT

Material: Alloy Steel
 Finish: Silver or Golden Yellow Galvanized

CAPACITY RANGE

15 kN Minimum.

RELEVANT STANDARDS

Meets or Exceeds EN 353-2:2002
