

UKCA Type Examination Certificate

This is to certify that:

JSP Limited
Worsham Mill
Minster Lovell
Witney, Oxford
OX29 0TA
United Kingdom

Holds Certificate Number:

UKCA 745042

In respect of:

**Powered Air Filtering Devices Incorporating A Helmet Or Hood.
To EN 12941:1998 + A2:2008.
See Continuation Sheets For Details**

On the basis that BSI carried out the relevant Type Examination procedures under the requirements of The Product Safety and Metrology etc (Amendment etc)(EU Exit) Regulations 2020 (SI 2020/676) relating to Personal Protective Equipment Regulation (PPE) 2016/425 Annex V (Module B) and meets the relevant health and safety requirements specified in Annex II.

For and on behalf of BSI, an Approved Body for the above Regulation (Approved Body Number 0086):

Frank Lee, Product Certification Technical and Compliance Director

UKCA Type Examination Certificate

No. UKCA 745042

Product Details:

Product Type: Power assisted filtering respiratory system incorporating a bump cap

Model: **PowerCap® Active™**

Technical Specification: EN 12941:1998 + A2:2008

EN 12941 Classification: Class TH1

The respiratory protective properties of the product assessment were based on BS EN 12941:1998 +A2:2008, the English language version of EN 12941:1998 + A2:2008 - Respiratory protective devices. Powered filtering devices incorporating a helmet or a hood.

The respiratory protective system consists of three basic elements, a model HardCap™ bump cap, a motor & filter assembly and a visor.

The motor and filter assembly and the faceshield are mounted on the peak of the cap. In operation, air is drawn through the filters and discharged behind the faceshield. The power for the motor is provided by a battery mounted at the rear of the bump cap.

The bump cap provides head protection in accordance with the requirements of BS EN 812:2012, the English language version of EN 812:2012, industrial bump caps, and has been independently assessed and CE marked. The faceshield is a vital part of the respiratory system but is not designed to provide eye protection.

Product Details (continued):

Product Type:	Power assisted filtering respiratory system incorporating a bump cap
Model:	PowerCap® Active™ ip
Technical Specification:	EN 12941:1998 + A2:2008
EN 12941 Classification:	Class TH1

The respiratory protective properties of the product assessment were based on BS EN 12941:1998 +A2:2008, the English language version of EN 12941:1998 + A2:2008 - Respiratory protective devices. Powered filtering devices incorporating a helmet or a hood.

The respiratory protective system consists of four basic elements, a model HardCap™ bump cap, a motor and filter assembly, a faceshield and a battery pack.

The motor and filter assembly and the faceshield are mounted on the peak of the bump cap. In operation, air is drawn through the filters and discharged behind the faceshield. The power for the motor is provided by either a belt mounted replaceable or rechargeable battery.

The bump cap provides head protection in accordance with the requirements of BS EN 812:2012, the English language version of EN 812:2012, industrial bump caps, and has been independently assessed and UKCA marked. The faceshield is designed to provide eye protection to EN 166:2001, optical class 1 with high speed particle medium energy impact (B), liquid droplets/liquid splashes (3). The faceshield assessment forming part of the assessment of the PowerCap® Active™ ip system.

Product Specification (Continued)

Product Type:	Power assisted filtering respiratory system incorporating a helmet
Model:	PowerCap® Infinity®
Technical Specification:	EN 12941:1998 + A2:2008
EN 12941 Classification:	Class TH3

The respiratory protective properties of the product assessment were based on BS EN 12941:1998 +A2:2008, the English language version of EN 12941:1998 + A2:2008 - Respiratory protective devices. Powered filtering devices incorporating a helmet or a hood.

The respiratory protective system consists of four basic elements, a model EVO®5, name only variant of EVO® Force 9+ industrial safety helmet, a motor and filter assembly, a faceshield and a battery pack. Audible & visual warning facilities are also present to inform users of issues regarding filter performance or battery life.

The motor and filter assembly and the faceshield are mounted on the peak of the industrial safety helmet. In operation, air is drawn through the filters and discharged behind the faceshield. The power for the motor is provided by a rechargeable battery.

The helmet provides head protection in accordance with the requirements of EN 397:2012 + A1:2012, industrial safety helmets, and has been independently assessed and UKCA marked. The faceshield forms a vital part of the respiratory system and meets the requirements of EN 166:2001, optical class one, ultraviolet filter scale 2-1.2, medium energy impact against high speed particles (B) & molten metal and hot solids (9).

Product Details (Continued):

Product Type: Power assisted filtering respiratory system incorporating a helmet

Model: **Jetstream™ & Jetstream™ GV-X**

Technical Specification: EN 12941:1998 + A2:2008

EN 12941 Classification: Class TH2 (Applies to both models)

The respiratory protective properties of the product assessment were based on BS EN 12941:1998 + A2:2008, the English language version of EN 12941:1998 + A2:2008 - Respiratory protective devices. Powered filtering devices incorporating a helmet or a hood.

The respiratory protective systems consists of a head unit and a waist-belt mounted air filter unit. The head unit, which can be one of seven types detailed below, includes a breathing hose for connecting the unit to one of the two types of air filter unit detailed below.

The air filter unit consists of a motor/control unit with integral re-chargeable batteries onto which a JSP Jetstream bayonet fixing type filter is fitted.

Air Filter Unit: The respiratory protection provided by the systems is dependent upon the type of air filter unit and filters used for the system, and are as follows.

Jetstream™ Unit: EN 12941 class TH2 unit for use with a filter for particles.

Jetstream™ GV-X Unit: EN 12941 class TH2 unit for use with a filter for particles and/or organic gases and vapours with boiling points above 65°C.

Head Units:	Fabric hood with clear polycarbonate visor	No additional protection
	Clear PVC hood with polycarbonate visor	No additional protection
	TYVEK hood with polycarbonate visor	No additional protection
	Faceshield unit with clear visor	Additional eye protection (1)
	JSP Evo 5 industrial safety helmet with Visor	Additional eye and head protection (2)
	Cobra Welding Shield	Additional welding eye protection
	Auto Darkening Welding Shield	Additional welding eye protection

- (1) Eye protection to EN 166:2001, optical class 1 visor with high speed particle medium energy impact (B), liquid droplets/liquid splashes (3), molten metal and hot solids (9).
- (2) Head Protection to EN 397:2012+ A1:2012, with the -20°C performance and electrical insulation options, and eye protection to EN 166:2001, optical class 1 visor with high speed particle medium energy impact (B), liquid droplets/liquid splashes (3), molten metal and hot solids (9).

June 2022	Replacement of MK VII shell with Evo 5 Helmet for Jetstream models.	0086:22:3681145

Certificate validity

The manufacturer is responsible for ensuring that the Approved Body is advised of changes to any aspect of the overall processes utilised in the manufacture of the product, failure to do so could invalidate the Certificate in respect of production following the introduction of such changes.

Monitoring of Manufactured PPE

The validity is also dependent upon the maintenance of the BSI issued Certificate UKCA 745081 for the Module D process under Regulation 2016/425 on personal protective equipment, as amended to apply in GB, the UKCA Quality of Production by Monitoring.
